

STANDARDIZE COVID-19 SCREENING WITH KINDUCT

Use Kinduct's data collection and reporting tools to track and govern COVID-related risks as your organization returns to work. Through our standardized solution, deploy a league-approved survey to both the athletes and staff safe, healthy, and adhering to league protocols.

Ingest, Understand, Act

- ▶ Screen athletes by sending daily, standardized questionnaires to their mobile devices inquiring about COVID-related risk and/or symptoms
- ▶ Collected data populates pre-built COVID-19 specific reports in your secure Kinduct platform; reports feature both individual and team-based tabs to further your up-to-date analysis
- ▶ Export the reports as a PDF and share easily with appropriate coaches, medical staff, and league officials
